
Red-bellied woodpecker!

Posted by Jenny - 2009/02/26 06:03

Caffeinemachine has provided pictures of a red-bellied woodpecker! Check them out under the woodpecker gallery or by clicking the link! Thanks Caffeinemachine!

If you have any pictures of red-bellied woodpecker, or any other kind of woodpecker, please share them with us! Woodpeckers are hard to for me to photograph since they are in constant motion and I only tend to have one type at my feeder: the downy woodpecker. Thank you for your help in getting more woodpecker photos on this site!
