
Robin eggs!

Posted by Jenny - 2009/04/30 05:10

There are some beautiful robin egg pictures that have appeared recently and I believe I know who submitted them but I wanted to make sure the correct photographer got the credit for these beauties! Please submit your name either here or on your next batch of pictures so we all know who took them. Thanks so much for sharing this nest experience! I can't wait to see more pictures as they hatch!:laugh:

Well I should have known that my good friend from Mcartycustoms was the one who had the robin egg pictures because she is the one who supplied many of the mockingbird egg pictures for us in the past! Thanks again!:cheer:
